SUMMARY

Software Engineer with 1+ year of professional experience building full-stack web, mobile, and AI-powered applications. Strong in TypeScript, Next.js, NestJS, and React Native, with hands-on experience building AI and agentic applications using LangChain and LangGraph. Experienced in taking products from Figma design to production deployment with strong end-to-end ownership.

WORK EXPERIENCE

Software Engineer | AgileTribers | Jul 2025 – Present (Intern → Full-time)

- Built a multi-tenant HR & project management SaaS end to end as the sole developer (Next.js, NestJS).
- Built and shipped an internal AI job discovery platform solo for college placement officers.
- Built a React Native water treatment app for a chemical manufacturer, with readings and reports.
- Worked on 20+ web, mobile, and backend apps across HR, project management, and ride-sharing.
- Built LangChain and LangGraph agent workflows for an enterprise agentic AI coding IDE.
- Built a React design system library from scratch for a leading financial services client.

KEY PROJECTS

HR & Project Management SaaS — Next.js, NestJS

- Multi-tenant SaaS combining employees, onboarding, interns, and hiring with boards, sprints, and tasks.
- Real-time collaboration: live boards, @mentions, notifications, and in-app messaging.
- Role-based access for Owner, Admin, HR, and Member roles; built solo, end to end.

My Local Image (Personal) — mylocalimage.com

- Privacy-first image toolkit (compress, convert, resize, crop, enhance) used by 1,000+ people.
- Runs fully in the browser with Rust + WebAssembly: no server uploads, no sign-ups, no limits.
- Designed, built, and launched solo.

Student Information System (Personal) — [Figma](#) | [GitHub](#)

- Role-based portals for students, faculty, and admins: attendance, results, timetable, and dues.
- Razorpay fee payments, JWT and QR login, and a Turborepo monorepo with shared TypeScript types.
- UI/UX design published on Figma Community, with 1,400+ duplicates.

Enterprise AI Coding IDE — React, NestJS

- Agentic AI IDE that plans, writes, and verifies code, built with LangChain and LangGraph.
- Design-system-aware code generation, context management, and tool integration.

Ride-Sharing Platform — Kotlin (Android), Node.js

- Worked across the backend, admin web, driver, and user apps, fixing production bugs and shipping features.
- Improved GPS accuracy and location filtering for reliable distance and fare calculation.
- Added batch and local-first storage to prevent data loss on poor networks.

SKILLS

Languages: TypeScript, JavaScript, Rust

Frontend: Next.js, React, React Native, Redux, Zustand, TanStack Query, TanStack Table, Tailwind CSS, shadcn/ui

Backend: NestJS, Express.js, GraphQL, tRPC, oRPC, Redis, Swagger, Passport.js, Better Auth, NextAuth.js, Razorpay

Database & ORM: SQL, NoSQL, Prisma, Drizzle ORM, Mongoose

AI & Agents: Vercel AI SDK, LangChain, LangGraph

Tools & Platforms: Git, GitHub, Docker, Linux, Turborepo, Vercel, Firebase, Postman, Figma, Google Play Console

EDUCATION

B.E. in Computer Science and Engineering

M.E.T Engineering College | 2021 – 2025

Advanced Diploma in Hardware and Networking Technology

NCFT Heights Institute | Apr 2023 – Oct 2023
